

## Gripster Ice Thermal Gloves

### Technical Details

The results are taken from the palm area of the gloves and the uncoated surface may have reduced performance levels.

EC type examination carried out by: SGS United Kingdom Limited, Unit 20B Worle Parkway, Weston-super-mare, BS22 6WA, United Kingdom (Notified Body No. 0121)

The Sanitized® hygiene function brings increased freshness, comfort and protection.

The Patented HPT® (Hydropellent Technology) coating process creates encapsulated air molecules which repel liquids for a firm dry, wet or oily grip and provides a cushioning effect which minimizes impact

**Storage:** Gloves should be stored in a cool, dry environment in the original packaging and out of direct sunlight.

**Maintenance:** Both new and old gloves should be thoroughly inspected before use to ensure no damage is present.

Gloves should not be left in a contaminated condition if reuse is intended - if contaminated, gloves should be cleaned as far as possible
